

# GREGORIO ORLANDO

Milan, Italy

(+39) 3890049946 | gorlando.ieu2022@student.ie.edu | [My GitHub](#) | [LinkedIn](#)

Eligible to sign an internship agreement via IE University

## SUMMARY

Motivated and ambitious Computer Science & AI student with hands-on experience in robotics development, 3D modeling, and simulation. Strong foundations in programming, reinforcement learning, and robotics software (ROS, Fusion360), with a proven ability to learn new tools quickly. Skilled in problem-solving and working effectively under pressure in collaborative environments. Currently seeking for Robotics Engineer position in software or hardware robotics company. Or continuing studies in robotics master.

## EDUCATION

### IE UNIVERSITY (IEU)

#### Bachelor in Computer Science and Artificial Intelligence

Madrid, Spain

Expected: July 2026

- GPA: 8.56/10.00.
- Relevant subjects/skills: Programming, Physics, Algorithm and Data Structure, AI & ML, Matrices & Linear Transformations, AI reasoning, HPC, AI Reinforcement Learning, Introduction to Robotics, Computer Vision, C++

## EXPERIENCE

### IE University – IE Robotics and AI Lab – *Research and Human-Robot Interaction Lab*

Madrid, Spain

#### Developer & Lab researcher

August 2023 - Present

- Managing and maintaining the lab's 3D printers, ensuring smooth operation, troubleshooting issues, and supporting students with printing tasks as the designated 3D printing lead.
- Co-developing a quadruped robot dog ([Botzo](#) Good Boy) with inverse kinematics and gait planning, powered by Raspberry Pi and 25kg servos. Designed optimal legs with low inertia, implementing IMU readings to balance the body in any cycle, creating dynamic walking is only one of the crucial points of this project. Currently exploring and working on training a neural network to enable autonomous locomotion and stabilization via reinforcement learning using Isaac Lab from NVIDIA.
- Engaging in ongoing lab research with ROS1 for various robotic systems. Creating a Clever Lamp ([Alfred](#)) with the wx250s robot arm from Trossenrobotics company. Combining ROS1 knowledge with the Optitrack system in the lab and a Kodak mini projector in order to help users with dynamic lighting, the focus spot on the desk, and a helping tool for code debugging.

### University of Luxembourg — SnT ARG Team – *Research and Automation Lab*

Luxembourg, Luxembourg

#### Developer & Lab Researcher

July 2025 – December 2025

- Contributing to PhD Mixed Reality and Human-Robot interaction project. Combining SLAM with Unity for user experience.

### FORMULA STUDENT — UCIII Team – *Annual Student Engineering Competition*

Madrid, Spain

#### Software Team Member

January 2024 – May 2024

- Contributed to ROS2 package development in C++ for the Formula Student competition by creating a software to record all car messages and store them into both ROS bag and excel sheet for performance analysis.

## EXTRACURRICULAR ACTIVITIES

- **OSHWDem:** Robot competition of fighting robots, 4<sup>th</sup> / 10 for our first time (November 2022, A Coruna, Spain)
- **Botzo:** Robot dog from scratch in IE robotics lab (September 2023 – Present, Madrid, Spain)
- **Clever Lamp:** Using Trossenrobotics wx250s robot arm, created a clever lamp (September 2024 – Present, Madrid, Spain)
- **ROS course:** Studied "ROS2 basics Python" and "RL in ROS" on the "[theconstructsim](#)" platform (2023 – Present, Online).
- **Optitrack Skills:** Participated in a 4-hour course on use of Optitrack system with Target 3D experts (2024, Madrid, Spain).
- **Coursera online AI course:** One week course hosted by Andrew Ng (2020, Online).
- **ITACA Volunteer:** Helped prepare charity events for people with mental disabilities (July 2010 – Present, Milan, Italy).

## ADDITIONAL INFORMATION

- **Language Skills:** Italian (Native). English (Fluent). Spanish (Intermediate). French (Intermediate).
- **Computer Skills:** Fusion360, Python, C, C++, Arduino, Raspberry Pi, VirtualBox, GitHub, MySQL, Docker, Azure, Linux, Optitrack, Software&Hardware, ROS1, ROS2, Unity, Isaac Sim, Isaac Lab.
- **Other courses:** Robotics and AI (2022), GitHub (2023), PoW (Paper of the week in IE Robotics Lab, 2023), Robotics IE Lab Assistant.
- **Interests:** Freeride Ski (2008), Drums (2009-20012), Moto Cross (2020), Lego Technique (2008-2015), manufacturing, robotics.
